

### Key features

- Incredible size to power ratio
- Versatile Sound reinforcement
- High performance 3600 W
- ARK processor optimised preset

### Applications

- Club & Bar installations
- Live sound
- Theatres
- Houses of worship
- Multi media spaces
- Sound reinforcement

### General description & specs

High power, sub-bass cabinet with dual 18" low frequency transducers in bass reflex, direct radiation configuration. 145dB SPL (7200W Program)

Components	2 x 18", 4" tetracoil dual voice coil	Rated Power (AES)	3600 W (7200 W program, 14400 W peak)
		Crossover	Active
		Nominal Impedance	4 Ohms
Frequency Range	29Hz – 200Hz (-10dB)	Connectors	2 x Neutrik Speakon NL4MP
Frequency Response	34Hz – 200Hz (± 3dB)	Finish	High resistant water-based black paint
Sensitivity	103 dB (1W@1m) π	Material	18 mm Premium birch plywood
Max. SPL	139 dB / 145 dB Peak	Dimensions (H x W x D)	585 x 1080 x 781 mm
Coverage	Omnidirectional	Weight	82 Kg (180 lbs)
