General description & specifications

The Juno Series are weather-resistant, two-way full range loudspeakers. The JN-8T comprises one 8" mid-woofer with one 1" HF driver. JN-8T cabinet is equipped with a multitap transformer.

High durability and superior performance with full sound over a large listening area. These cabinets have a sturdy structure and IP rated system which can be used both indoors and outdoors, being able to withstand the elements. Also, their elegant and discreet design make them the ideal speaker for outdoor installations such as beach clubs, pools, cruise ships and terraces.

Juno series can be set up either vertically or horizontally. The body is made of engineered plastic injection moulding and polypropylene guarantees complete protection against ultraviolet rays. The grille is perforated aluminium, internally covered in waterproof fabric and open cell expanded polyurethane.

The system conforms to IP46 international standard.
